

The success of the National Teams has no end and the Greek Basketball Coaches Association has the joy -once more- to congratulate the Women's U-16 National Team and its coaching staff for the advance to the Quarter-Final of the European Championship in Naples.

The credit goes to Takis Bakogiorgos and to his assistants for this very important progress the team made. After the last year's advance to Division A, the success goes on and everybody hopes that on Friday against Belgium Greece will make one more step.

After the success of the Women's Team the girls of the national team proved that women's basketball in Greece has depth and is building the foundations for an even better future.
